PROFILE

Customer-focused and technically capable worker with experience in food service, retail, delivery, sales, and general labour. Comfortable working in a fast paced work environment where customer satisfaction is the primary goal. Currently studying Cognitive Science at Carleton University while independently building websites and game-related programming projects. Seeking flexible part-time work in an active environment with a strong customer service focus.

EXPERIENCE

Baker / Team Member Tim Hortons | Apr 2025 - Mar 2026

Food Service / Customer Service

- Prepared food and baked goods while maintaining speed, quality, and cleanliness standards.
- Served customers in a fast-paced environment using point-of-sale systems.
- Worked with coworkers during busy shifts to keep service moving efficiently.
- Handled stocking, cleaning, and routine opening or closing duties.

Sales / Technical Support Weed Man | Feb 2025 - Apr 2025

Customer Service / Sales Environment

- Communicated with customers about services, scheduling, and account information.
- Used company software and customer management tools to support daily operations.
- Worked in a team environment with performance goals and customer follow-up tasks.
